Zanuncio, J. C.	1938	SPATIAL DISTRIBUTION OF NESTS OF THE LEAF CUTTING ANT ATTA SEXDENS RUBROPILOSA (HYMENOPTERA: FORMICIDAE) IN PLANTATIONS OF EUCALYPTUS UROPHYLLA IN BRAZIL	I	488	23/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	1953	DEVELOPMENT OF PSILOPTERA SP. (COLEOPTERA: BUPRESTIDAE) IN STUMPS OF PINUS CARIBAEA, IN THE NORTHEAST REGION OF THE STATE OF BAHIA, BRAZIL	I	492	24/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	1954	OCCURRENCE OF PSILOPTERA SP. (COLEOPTERA: BUPRESTIDAE) DAMAGING PLANTS OF EUCALYPTUS SPP., IN THE NORTHEAST REGION OF BAHIA, BRAZIL	I	492	24/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	1984	EFFECT OF FEEDING ON THREE EUCALYPTUS SPECIES ON THE DEVELOPMENT OF BRONTOCORIS TABIDUS (HET.: PENTATOMIDAE) FED WITH TENEBRIO MOLITOR (COL.: TENEBRIONIDAE)	I	500	25/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	1985	LEPIDOPTERAN COLLECTED IN AN EUCALYPTUS PLANTATION IN GOIÁS, BRAZIL, FROM MAY 1995 TO APRIL 1996 - EFFECT OF TEMPERATURE AND RAINFALL ON POPULATION DYNAMICS	I	500	25/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	2865	EFFICIENCY OF MIREX-S MAX (SULFLURAMID 0.3%) BAIT AGAINST ATTA SEXDENS RUBROPILOSA AND ACROMYRMEX OCTOSPINOSUS (HYMENOPTERA: FORMICIDAE)	II	723	24/08/00	16:30	CC		14	PS	14
Zanuncio, J. C.	1474	PARASITISM RATE AND VIABILITY OF TRICHOGRAMMA MAXACALII (HYM.: TRICHOGRAMMATIDAE) ON EGGS OF THE EUCALYPTUS DEFOLIATOR EUSELASIA APISAON (LEP.: RIODINIDAE)	I	372	26/08/00	11:05	HM	O	8	8	8
Zanuncio, J. C.	1849	OCCURRENCE OF HYMENOPTERA PARASITOIDS IN LARVAE OF PHORACANTHA SEMIPUNCTATA (COLEOPTERA: CERAMBYCIDAE)	I	466	23/08/00	16:05	HB	M	10	4	10
Zanuncio, J. C.	1926	PATTERNS OF SPECIES RICHNESS AND ABUNDANCE OF DEFOLIATOR LEPIDOPTERA ASSOCIATED WITH EUCALYPTUS GRANDIS IN BRAZIL AND HOW THEY RELATE TO PLANT AGE	I	485	22/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	375	STRESS BY SUBLETHAL DOSES OF PYRETHROIDS ON THE DEVELOPMENT, SURVIVAL AND WEIGHT OF SUPPUTIUS CINCTICEPS (HETEROPTERA: PENTATOMIDAE)	I	95	22/08/00	16:30	CC		2	PS	2
Zanuncio, J. C.	1681	QUANTITATIVE MASS PRODUCTION OF THE STINKBUG PREDATOR PODISUS NIGRISPINUS (HETEROPTERA: PENTATOMIDAE)	I	424	25/08/00	16:30	CC		8	PS	8
Zanuncio, J. C.	1962	INFLUENCE OF STRIPS OF NATIVE VEGETATION IN PLANTATIONS OF EUCALYPTUS CLOËZIANA ON POPULATION OF OXYDIA VESULIA.	I	494	24/08/00	16:30	CC		10	PS	10
Zanuncio, J. C.	1690	ENVIRONMENTAL AND PREY INTERACTION ON THE DEVELOPMENT AND REPRODUCTION OF THE STINKBUG PREDATOR PODISUS NIGRISPINUS	I	426	25/08/00	16:30	CC		8	PS	8
Zanuncio, T. V.	375	STRESS BY SUBLETHAL DOSES OF PYRETHROIDS ON THE DEVELOPMENT, SURVIVAL AND WEIGHT OF SUPPUTIUS CINCTICEPS (HETEROPTERA: PENTATOMIDAE)	I	95	22/08/00	16:30	CC		2	PS	2
Zanuncio, T. V.	1701	HYMENOPTERAN NATURAL ENEMIES IN A EUCALYPTUS PLANTATION IN IPABA, STATE OF MINAS GERAIS, BRAZIL	I	429	21/08/00	16:30	CC		8	PS	8
Zanuncio, T. V.	1816	ENVIRONMENTAL DIVERSITY IN A EUCALYPTUS PLANTATION AFFECTS NUMBERS OF SARSINA VIOLASCENS (LEPIDOPTERA: LYMANTRIIDAE) ADULTS?	I	458	21/08/00	11:50	HB	M	10	1	10
Zanuncio, T. V.	1887	USE OF STRIPS OF NATIVE VEGETATION WITHIN EUCALYPTUS PLANTATIONS AS A STRATEGY TO REDUCE LEPIDOTERA PEST POPULATIONS	I	476	26/08/00	13:35	HB	M	10	10	10
Zanuncio, T. V.	1962	INFLUENCE OF STRIPS OF NATIVE VEGETATION IN PLANTATIONS OF EUCALYPTUS CLOËZIANA ON POPULATION OF OXYDIA VESULIA.	I	494	24/08/00	16:30	CC		10	PS	10
Zanuncio, T. V.	1984	EFFECT OF FEEDING ON THREE EUCALYPTUS SPECIES ON THE DEVELOPMENT OF BRONTOCORIS TABIDUS (HET.: PENTATOMIDAE) FED WITH TENEBRIO MOLITOR (COL.: TENEBRIONIDAE)	I	500	25/08/00	16:30	CC		10	PS	10
Zanuncio, T. V.	1926	PATTERNS OF SPECIES RICHNESS AND ABUNDANCE OF DEFOLIATOR LEPIDOPTERA ASSOCIATED WITH EUCALYPTUS GRANDIS IN BRAZIL AND HOW THEY RELATE TO PLANT AGE	I	485	22/08/00	16:30	CC		10	PS	10
Zanuncio, T. V.	1950	MONITORING OF LEPIDOPTERA DEFOLIATORS OF EUCALYPTUS IN NIQUELÂNDIA, STATE OF GOIÁS, BRAZIL	I	491	23/08/00	16:30	CC		10	PS	10
Zanuncio, T. V.	1985	LEPIDOPTERAN COLLECTED IN AN EUCALYPTUS PLANTATION IN GOIÁS, BRAZIL, FROM MAY 1995 TO APRIL 1996 - EFFECT OF TEMPERATURE AND RAINFALL ON POPULATION DYNAMICS	I	500	25/08/00	16:30	CC		10	PS	10
Zapater, M. C.	1702	EXPLORATION IN ARGENTINA FOR POTENTIAL BIOLOGICAL CONTROL AGENTS OF HELIOTROPIUM AMPLEXICAULE, AN INVASIVE WEED IN EASTERN AUSTRALIA	I	429	25/08/00	16:30	CC		8	PS	8
Zappalà, L.	1487	STATUS OF BIOLOGICAL CONTROL OF THE CITRUS LEAFMINER (PHYLLOCNISTIS CITRELLA) IN ITALY	I	375	21/08/00	16:30	CC		8	PS	8
Zara, F. J.	3202	THE SALIVARY GLANDS OF PACHYCONDYLA (= NEOPONERA) VILLOSA (HYMENOPTERA: FORMICIDAE) LARVA: FUNCTIONAL CHANGES IN LAST INSTAR	II	808	25/08/00	16:30	CC		16	PS	16
Zartaloudis, Z. D.	2083	COMBINED APPLICATION OF MATING DISRUPTION AND BACILLUS THURINGIENSIS FOR CONTROL OF THE BERRY MOTH IN GREEK ISLANDS, LIMNOS AND SAMOS	I	525	22/08/00	16:30	CC		11	PS	11
Zartaloudis, Z. D.	2111	EFFICACY OF SPINOSAD NATURALYTE INSECT CONTROL AGAINST LOBESIA BOTRANA (LEPIDOPTERA: TORTRICIDAE) ON GREEK VINEYARDS	I	532	23/08/00	16:30	CC		11	PS	11
Zatwarnicki, T.	3663	A PHYLOGENETIC STUDY OF THE TRIBE DRYXINI (DIPTERA: EPHYDRIDAE)	II	925	24/08/00	11:05	HB	E	21	6	21
Zaviezo, T.	407	CONSERVATION OF THE BIODIVERSITY OF INSECTS IN CHILE	I	103	23/08/00	10:50	HB	C	3	3	3
Zaviezo, T.	541	THE SOCIEDAD CHILENA DE ENTOMOLOGIA	I	137	24/08/00	16:30	CC		3	PS	3
Zawadneak, M. A. C.	2762	FIRST RECORD OF NEOHYDATOTHRIPS SAMAYUNKUR (THYSANOPTERA:THRIPIDAE) IN BRAZIL	II	697	23/08/00	16:30	CC		14	PS	14
Zborowski, P.	1811	INSECTS IN THE TROPICAL LAND-USE MOSAIC – THE IMPACT OF AGRICULTURAL AND FOREST DEVELOPMENT	I	457	21/08/00	9:50	HB	M	10	1	10
Zdarek, J.	2538	THE ROLE OF MOULTING HORMONE IN DETERMINATION OF PUPARIATION BEHAVIOUR IN FLIES	II	641	25/08/00	16:30	CC		13	PS	13
Zdarkova, E.	4097	MITES OF STORED HAZELNUTS IN TURKEY	II	1034	24/08/00	16:30	CC		23	PS	23
ďárková, E.	41	THE CARBOHYDRAZES OF THREE ACAROID MITES (ACARI: ACARIDIDA) – PRELIMINARY RESULTS	I	11	23/08/00	16:30	CC		1	PS	1
ďárková, E.	42	THE FOOD INTERACTIONS BETWEEN THREE ACAROID MITES (ACARI: ACARIDIDA) AND SOME MICROMYCETES	I	11	23/08/00	16:30	CC		1	PS	1
Zdárková, E.	74	NUMBER OF PREY NECESSARY FOR COMPLETING DEVELOPMENT OF CHEYLETUS ERUDITUS (ACARINA: CHEYLETIDAE)	I	19	25/08/00	16:30	CC		1	PS	1
Zebitz, C. P. W.	1544	SURVEY FOR NATIVE TRICHOGRAMMATID SPECIES IN KENYA	I	389	22/08/00	16:30	CC		8	PS	8
Zefa, E.	3867	BEHAVIOUR, BIOACUSTIC, PHALLIC SCLERITES AND CYTOGENETIC IN SOME SPECIES OF THE GENUS ENDECOUS (ORTHOPTERA, PHALANGOPSIDAE)	II	976	22/08/00	16:30	CC		21	PS	21
Zelazowska, M.	3146	DIFFERENT MECHANISMS ENSURE THE FLOW OF CYTOPLASMIC CONSTITUENTS IN NURSE CELL-OOCYTE SYNCYTIA	II	794	23/08/00	16:30	CC		16	PS	16
Zelenay, S.	4086	ANALYSIS OF VARIATION OF SPECIFIC CHARACTERS OF CULEX (CULEX) IN TWO ENVIROMENTS AND DETECTION OF NEW SPECIES IN THE CITY OF BUENOS AIRES	II	1032	23/08/00	16:30	CC		23	PS	23
Zeng, B.	1432	IN VITRO REARING OF TRICHOGRAMMA OSTRINIAE PANG ET CHENS	I	361	21/08/00	15:05	HM	O	8	2	8
Zeng, L.	3996	INTEGRATED MEASURES FOR CONTROLLING THE DIAMONDBACK MOTH (DBM) IN SOUTHERN CHINA	II	1008	25/08/00	16:30	CC		22	PS	22
Zeng, L.	4001	EFFECTS OF INTEGRATED MEASURES FOR CONTROLLING THE DIAMONBACK MOTH (DBM) ON ARTHROPOD DIVERSITIES IN VEGETABLE PLANTATIONS	II	1010	25/08/00	16:30	CC		22	PS	22

CONTROLA SOZINHO A LAGARTA DO CARTUCHO EM QUALQUER FASE.

Mais vantagens para a sua lucratividade

- Tracer* tem atividade residual igual ou superior aos demais inseticidas (7 a 10 dias).
- Tracer* pode ser aplicado via Pivô Central ou equipamento tratorizado.
- Tracer* apresenta alta seletividade aos inimigos naturais da lagarta - excelente ferramenta nos programas de Manejo Integrado de Pragas.
- Tracer* não apresenta, até o momento, incompatibilidade com os produtos utilizados na cultura do milho.
- Tracer* possibilita um adequado Manejo de Resistência, graças a seu novo modo de ação.
- Tracer* é apresentado em embalagens de 1 litro, facilitando o manuseio e a aplicação.
- Tracer* minimiza os problemas de descarte de embalagens, graças às suas baixas doses.
